

29HO13010 KINGS-RANSOM DONAIRO-ET*TL*TV

By Tom Harkenrider

DONAIRO is one of our first LOOKOUT sons in the active line-up. LOOKOUT is the Genus/ABS UK proven Lord Lilly x Slocum noted for production and health traits. DONAIRO daughters will produce very large volumes of high quality (low Somatic Cell Score) milk. They calve easily and will easily enter the milking herd for several lactations.

Family Information

DONAIRO is a maternal brother to Kings-Ransom DISTANT and very familiar to the ABS family...tracing back to the world renowned Pen-Col Wayne Deena. This family has prevailed in providing outstanding genetics to the world for several years. The dam of DONAIRO, Mtoto Dima has proven to be a successful brood cow for the King Family at Kings-Ransom Farm in NY. She has placed several bulls in AI and contributed females to carry on the tradition. Her most successful daughter is a DEBUT daughter, Kings-Ransom DB Digital-ET EX-90 with records to 18,000kgs, 4.1%F and 3.1%P. ABS has sampled sons by Laudan and Bret. Great grand daughters of Dima by Laudan and Lynch have sons at ABS as well.

Daughter Information

DONAIRO daughters have great udders. They are carried above the hock with a deep cleft, strong fore udder attachment and a high, wide rear udder attachment. The daughters have correct flex in the hock that track straight from the rear with a deep heel. They have a clean, flat bone and correct slope from hips to pins.

Mating Information

DONAIRO can be used in the heifer pens. He will cross well on daughters of AFFIRMED, BOLTON, BRADLEY, CASHMERE, DEE, DIE-HARD, DRAKE and GRAYSON.
