5th Dam: D-R-A Princess Lad Leader EX-90 3E

Family Information

ARUDOLF-RED hails from the herd of Kamps-Hollow Dairy in Belmont, WI. ARUDOLF'S dam Clover-Mist Alisha EX-93, is a Prelude out of Augy Star EX-94 (sired by Jubilant), both arrived at Kamps-Hollow Dairy following the Clover-Mist dispersal sale. Alisha is having a big impact in the Kamps herd; today she is 16 years old and has over 50 offspring. Her EX-95 Durham daughter Kamps-Hollow Altitude RC is the popular dam of Advent-Red. Altitude is also the dam of Apple-Red, "The Million Dollar Red Cow" and KHW Goldwyn Aiko VG-86 the highest ranking CTPI Red/RC cow in the USA and a popular cow at Kamps Hollow. In addition, she is the dam of KHW Regiment Ariel-Red; she topped Canada's Sale of Stars last year at \$85,000. The cow family has proven to transmit type, fat percent and longevity. In addition to ARUDOLF's dam alive today at 16 years, her dam Augy Star lived to be 17 years old and third dam passed away at the age of 18 years! Ryan Kamps is excited about the numerous daughters of Alisha on the farm including daughters sired by JET-RED and SHOTTLE.

Daughter Information

ARUDOLF-RED lends himself to be a red bull used to make dairy, refined, smaller sized daughters. They have plenty of depth of body, adequate spring of both fore and rear rib and average width throughout. This bull should be protected on the fore udder as daughters tend to be slightly loose in their fore udder attachment. With a high Productive Life (+3.4) and low Calving Ease score (6), ARUDOLF can be used in the heifer pens as well.

Mating Information

ARUDOLF-RED is a calving ease sire and would cross well on the daughters of Redliner, Mr. Burns, Talent, JET-RED, DISTRIGENE-RED, KITE*RC and RAMPAGE-RED.
