Family Information

Sandy-Valley Blessing is one of CONVINCER's finest daughters and she was bred and developed by Sandy-Valley Farms of Scandinavia Wisconsin. Blessings combination of style, balanced with dairy strength, an Excellent udder, will to milk, backed by a fine cow family; she attracted attention from all over the World, BOLTON is the first of several sons of Blessing at ABS. Blessing has 95 siblings and is the daughter of BRETT's full sister Ricecrest Bwood Brianne and the next dam back is the legendary Southwind Kay. BOLTON's sire, Hershel is a Luke x Mascot x Blackstar x a tremendous SEXATION daughter. Hershel is noted for his extreme milk production and is a great foot and leg bull. Based on 10,000 daughters and 99% reliability, he is positive for Productive Life.

Daughter Information

BOLTON daughters are tall, long, stylish cows with exceptional udders and he consistently sires the fancy kind. The rear udders are stunning with their extreme height and width, they are held high above the hock and the cleft is clearly defined. The fore udders are fastened snug to the body wall and the udders are silky with visible quality. They track straight on their rear legs when viewed from the rear with an awesome foot and they have some flex to the hock. The Bolton daughters were one of the group favorites on the May 2006 ABS Progeny Promotions tour.

Mating Information

Bolton is not recommended for the heifer pens, but would work well on milking daughters of GORDON, OZZIE, Durham, Rudolph and Outside.
