

529HO11849 BOMAZ BOULDER-ET*TL*TV

By Paul Trapp

BOULDER is one of the early Finley sons available in the industry and from the same family as ABS favorite 29HO11153 HOMESTEAD. Use BOULDER to improve udders, overall type and add some outcross genetics.

Pedigree Information

Sire: Opsal Finley-ET
Dam: Dalse Bomaz 1617 EX-91 2E GMD DOM
3-00 3X 365d 43709M 5.0% 2180F 2.8% 1227P
MGD: Dalse Bomaz 1551 EX-90 2E GMD DOM
Lifetime: 1286d 114590M 4.9% 5669F 3.2% 3685P
3rd Dam: Dalse Highlight Kathy EX-94 @ 12-05 3E GMD
Lifetime: 3627d 373090M 3.8% 14360F 2.9% 10810P (in 8 Lactations)
4th Dam: Dalse Visa Kinski
Lifetime: 2113d 165210M 4.3% 7029F 3.0% 4954P (in 7 Lactations)
Note: Next 3 dams tested 4.5%, 4.5% and 4.3% respectively.

Family Information

BOULDER was bred by Bomaz Farms where over 500 cows call a large well managed free-stall barn in Hammond, WI their home. He has a unique outcross pedigree being an early Finley x Rubytom x Finale x Highlight. This is the same family to produce 29HO11153 HOMESTEAD. The dam of HOMESTEAD is the MGD of BOULDER. 1617 was a medium sized cow with a near perfect udder and great feet & legs. 1551 was a big massive all white cow with youthful udder and ideal feet and legs and was always a visitor favorite. ABS has invested heavily into 1551 by sampling 14 sons. In the coming years we look forward to her LOOKOUT, DETROIT, DIE-HARD and Lynch sons getting proofs. The sire of 1551 is Peckenstein Prelude Finale. He was a Prelude son x Blackstar that died in waiting at Select Sires. Today Finale is still over +.17% Fat and over +1.00 on all three type composites. The dam of 1551 is an awesome Highlight cow that made over 373,000 lifetime and is the only cow in the 6 generations behind BOULDER that tested less than 4.3 for fat%. 1617 has VG daughters by Cooper, Inquirer, Garter, Merchant, Finley, LOOKOUT, Lancelot (2) and Lynch. 1617 has two active sons in AI...14HO4371 Belt and 11HO8419 AltaMercantile. 1617 has 12 VG and 1 EX maternal sister. As you have noticed in the ABS Bull Book, we have continued to invest heavily in this exciting family.

Daughter Information

BOULDER daughters are built like his dam; they are long, clean dairy cows with an open dairy rib design and stand on slightly set legs. The calling card is the udders...they are snugly attached while displaying a deep seam and centrally placed teats. BOULDER daughters have wide rumps but slightly raised pins.

Mating Information

Use BOULDER on milking daughters of DRAMATIC, GARRISON, BURT, REECE and JAMMER.
