

## 29HO11655 Palmcrest BREAKOUT TL\*TV

by Paul Trapp

From the hills of North East Iowa comes another type and udder specialist by the code name BREAKOUT. BREAKOUT comes by his outstanding type and udders naturally as he is backed by 7 generations of VG or EX cows. This is one of the few families in the industry that combines a deep pedigree, All-American heritage and proven AI sires.

### Pedigree Information

Lifetime: 2431d 131940M 3.6% 4744F  
7<sup>th</sup> Dam: Regancrest Standout Bertrand VG-85

### Family Information

The dam of BREAKOUT was sold as a heifer through one of the Regancrest Sales to the Palmer Family on the south side of Waukon. Palmer's were looking for an animal they could show and maybe sell bulls from. Frank Regan recommended they look at buying Durham Bliss. They followed Frank's advice and as you could say "the rest is history." Durham Bliss has opened many doors for the Palmers as she was a nominated Jr. All-American, plus she has sold bulls and embryos worldwide. I remember seeing BREAKOUT as a calf on the farm...he was one of the best typed individual calves I have ever brought to ABS. As you can see above he is backed by a deep deep pedigree...his MGD, Juror Brina was one of Juror's best, plus she is the full sister to the popular bull Juror Bond that was marketed by CRI. Outside was one of the best matings on Bliss as it resulted in 1 EX and 2 VG daughters. Additionally, Bliss has 1 EX, 10 VG and 5 GP daughters. The Durham mating worked quite well on Juror Brina as Bliss has 3 EX and 3 VG full sisters. Lastly, Bliss is the dam of the high type Blitz son at Select called Blade.

### Daughter Information

As you would expect, BREAKOUT daughters are tall cows with a large frame, plenty of width and body depth, yet they do have a balance of dairyness. Udders are very snugly attached in both the fore and rear attachments with a deep cleft and ideal teat placement.

### Mating Information

Feet and legs are not BREAKOUT'S specialty, so use him on daughters of James, Stormatic, Talent, BOLIVER, and TABOO for best results.
