       Best Record: 2x 305d 12707kgs 4.43%F 562kgs 3.71%P 471kgs

### Family Information

In the Midlands in the UK, the Dolly family has been expertly developed by Philip and Debbie Kirkham. The original foundation cow is still alive and well at a spritely 19 years of age and keeps a proud eye on the dynasty of VG and EX daughters, granddaughters and great-granddaughters she has produced. With a 30\* brood status she stands as one of the premier brood cows ever to come through the UK, and descendants continue to fill the top end of the UK rankings and are contracted globally for sons. Her granddaughter by Tugolo won many fans, thanks to perfect legs and feet and a simply beautiful udder coated with veins and silky soft in texture. This black hided cow carried ideal condition throughout lactation and had an eyecatching blend of strength and dairyness and had a rare talent of producing large volumes of milk with high levels of protein and fat.

### Daughter Information

DESTINY daughters are strongly built with moderately sized frames and medium stature. Robust daughters are competitive at the feedbunk yet quiet and placid in the parlour. Near perfect leg set is married to quality hooves, and daughters track with confidence and ease. Rumps have nice slope from hook to pin and ideal thurl placement. DESTINY's particularly excel in the rear udders, which are set high, wide and handsome, and come with a strong suspensory ligament.

### Mating Information

DESTINY is a calving ease sire and will cross nicely on daughters of LOOKOUT, SEATTLE, NANSEN, MELODY, SHOTTLE, DIEHARD, HOMESTEAD, BOLTON, ALTON and BOLIVER.
