

29HO11362 OVERSIDE DRAGON-ET *TL*TV

by Andrew Rutter

DRAGON is receiving great praise from UK test herds. Backed by the Dellia family he is breeding daughters ideal for todays demanding milk producers. Daughters with strength and robustness perfect to cope with any system, excellent management traits and essentially, long lasting legs feet and udders. DRAGON excels in the most important traits required to keep cows in the herds for longer.

Family Information

This UK branch of the Dellia family has been developed with great success by Hugh Neilson at his Overside herd. All Overside Fatal Dellia's progeny are scored VG or EX. The pick of which is Overside Convincer Delight, widely regarded as one of the best Convincer daughters in the world, she has had embryos exported to Canada and Europe. To date she has five daughters classified, all VG, two are full sisters to Dragon. Overside Ford Daylight VG89, began as a promising two year old, and blossomed into a terrific young cow and is a bull mother for Genus ABS.

Daughter Information

DRAGON daughters are balanced, strong cattle exhibiting plenty of width and exemplary power through the front end. They are moderate in stature, are not extreme and have strong rumps with plenty of slope. He excels for mammaries, shallow udders which are tightly attached up front and wide rear udders are split with a deep cleft. DRAGON's are super on the move, tracking clean and pure with deep heeled feet and close to ideal set.

Mating Information

DRAGON is calving ease and will mate well to daughters of DIE-HARD, SHOTTLE, PIPPEN, ROY, Principal, Durham and BW Marshall
