DENMARK'S NEW NUMBER ONE JERSEY SIRE JOINS GENUS ABS STUD

DJ Zuma, who recently claimed the new number one spot for Total Merit Index in Denmark, joins the Genus ABS stud, bringing outstanding production and an impressive type proof.

Bill Foster, Dairy Breeding Specialist for Genus ABS explains, "His daughters are average in stature, open ribbed with good legs and feet and fantastic udders. They have strong udder attachments with strong ligaments (+2.3 udder support) and very good teat placement."

Zuma scores +333kg Milk, +20.5kg Fat (+0.06%), +15.7kg Protein (+0.06%) and is +1.7 Type Merit.

"One of the top Jersey bulls in Denmark for daughter fertility, he is a great choice for farmers looking to improve fertility especially on grassland systems, where a tight calving pattern is essential.

"Zuma is a son of Q Zik, who has been a very popular bull in the UK in recent years, with a PLI of £178 and +2.3 for udders. His dam is a Lemvig daughter that milked very well, with high fat and protein percentages, averaging 6,123kg at 6.00% fat and 4.04% protein for seven lactations," Mr Foster concludes.

Semen is now available at £19 per straw.
