

SCHILLVIEW GERARD-ET*TL*TV

By Paul Trapp

GERARD is an O-Man son and certainly worth the wait! His traditional information has pushed his proof up considerably above his genomic proof. This new graduate is Rock Solid out of the gate with low calving ease, a pleasing type pattern, plus components and a nice milk volume.

Pedigree Information

Sire: O-Bee Manfred Justice EX-94
Dam: Schillview Marsh Glash-ET VG-89 DOM
2-02 365d 13540kg 4.7% F 3.7% P

Lifetime: 1533d 46 tonnes 3.3% F 3.3% P (5 lactations)
8th Dam: Hayseed Acres Astro Ginger EX-90 4E
Lifetime: 2917d 66 tonnes 3.5% F 3.1% P (10 lactations)

Family Information

As you can see from above GERARD comes from a very deep cow family. Mike and Karen Schiller are the breeders of GERARD and they milk about 100 cows near Freeport, MN. ABS Rep, Tom Foss calls this herd one of the truest milk herds in his area and I totally agree. GAMETIME is the Lancelot brother to GERARD, launched in the US. GARRETT is also from this impressive cow family and has been one of the top Sires of Sons over the last 6 months. So needless to say this has been a very successful AI cow family. BWM Glash has VG daughters sired by Magna, Morty, O-Man (2), Bret, Laudan, Jocko Besne (2) and BOLIVER. Several of these cows have sons at ABS or have been contracted by ABS. Labelle Glitter was one of my all time favorite cows at Schillview. She was a black silky cow that was the definition of dairy strength and loved to live in the free stalls at Schillview. This is a hard working, honest and deep cow family that has performed extremely well in many different herds around the world. With GERARD, GAMETIME and GARRETT in the ABS Global line up...they can now go to work for you too!

Daughter Information

The GERARD daughters have consistently great udders with extremely snug fore udder attachments and high, wide rear udders. They tend to be slightly straighter in the rear leg and have a steep foot with a deep heel. The GERARD daughters are built to last with their balance and moderate-sized frames with wide, level rumps.

Mating Information

Use GERARD in the heifer pens or milking herd on daughters of BOLTON, BOLIVER, DIE-HARD, BURT, DRAKE, GARRISON, JAMMER, MANGO, PIPPEN, REECE, Goldwyn, Ramos, Buckeye and Toystory.
