

# Sollien GRANDVIEW-ET\*TL\*TV

by Paul Trapp

GRANDVIEW is from a very deep, AI proven and tough family. His recipe of solid production, low SCS, and an outstanding type pattern combine to make long living cows that are highly profitable for their owners. His sire stack will be very appealing!

## Pedigree Information

Lifetime: 3694d 92398KgM 4.3% 8817F

## Family Information

As you can see from above, this is a cow family that knows how to last lactation after lactation. GRANDVIEW was purchased from Mark Sollien of Mabel, MN. Mark bred and developed the MGD, R Hero Greta. She was one of the original R HERO daughters. She was purchased by Long-Haven Farms of Michigan and then Mark bought back the dam of GRANDVIEW as a heifer calf. Some of you may remember BELLHERO; he is the Bellwood son x R Hero Greta that was active at ABS. To date Greta has 1 EX and 5 VG daughters. Additionally she was a successful show cow being named Grand Champion of the Mid-East Spring National in 1998.

## Daughter Information

Field reports confirm GRANDVIEW is a type specialist. He transmits a balanced dairy frame with adequate width and depth with awesome udder attachments and a cleft you can lose your hand in. Legs are slightly set when viewed from the side but track correctly when viewed from the rear and stand on a deep heel.

## Mating Information

Use this 8 calving ease bull on daughters of Principal, Lucente, INDRO, Ford, WESTMINSTER, LOOKOUT, Outside and O-Man.
