R Gina VG86

Apina Massia 20 VG89 (Grand dam)

Heja Spencer Leipo Red FH3364

Dam of Leipo is a really impressive Shottle, super rumped, great legs and feet and sweet udder, and she has all the promise to make a really great cow. Next dam is the fantastic Massia 20 VG89, who was sampled at the Delta nucleus test herd and was rated as one of the best red cows to ever go through the programme. She has bred several VG two year old daughters today, including the impressive Southland Maria Red who scored 89 points as a heifer. Massia 20's full sister is the noted Massia 21 EX, who has been contracted to a number of studs around the world and is dam of the high ranking Apina Curtis. This family has produced a number of proven sons, the highlight so far being Tocar, the current No 1 Red and White Sire in Germany. He is a grandson of Massia 13. Spencer is the current No 1 Red and White sire in Holland, and is noted for his strong fitness and component traits.
