

## 529HO11955 LYNNCREST HORIZON-ET\*TV

By Tom Harkenrider

HORIZON is the complete package. His daughters produce high quality, nutrient rich milk over several lactations and look good doing it. They do this by breeding back quickly and calving easily. These are the traits important around the world. Horizon in an elite NM\$ and TPI bull that drives instant sales and profitability for ABS and our Customers.

### Family Information

HORIZON comes from the same family as ABS favorite, 29HO10241 HESS. Kirby & Sheryl Horst in Newmanstown, PA have been developing this family for several years. The family features many impressive individuals and collectively some great accomplishments. HORIZON's maternal line includes 7 consecutive generations of GMD and/or DOM animals. His 4<sup>th</sup> and 6<sup>th</sup> dams with over 221,000 Lifetime milk and the 8<sup>th</sup> dam, a 5E-92 Hagen daughter, with 8 completed lactations. ABS has sampled other sons from the family including a maternal brother to HORIZON, 29HO13153 HUGHES (x BOLIVER) and 29HO13994 HEX, (BOLTON x Potter Honikist x BW Marshl Horizon).

### Daughter Information

HORIZON daughters exhibit the best traits of Oman and BW Marshall. They are balanced, medium sized animals with a clean, flat bone. They possess the ever important dairy strength with width throughout and ideal rump angle. They move easily in any type of housing environment and display a very youthful mammary system.

### Mating Information

HORIZON can be used extensively in the heifer pens. He will cross well on daughters of ALTON, BOLIVER, BURT, DAGWOOD, DAYTON, DIE-HARD, DRAMATIC, LENOX, MALIN, PRO, STATUE and TURNER.
