3	6256	304	5.50	4.00
4	6998	305	5.10	3.80
5	5501	305	5.10	3.80

Kaarmona Parade Babe 3rd, maternal sister to dam of Beclear

- *Kaarmona Beclear is bred from an impressive line up of high scoring cows in the Babe family - five of the seven closest dams are scored EX. The Kaarmona herd is one of the best herds in Australia and all the cows are kept on a grassland system.*
- *Clearcut, the sire of Beclear, combines high milk production with very good protein percent.*
- *Flowerpower, the maternal grand sire of Beclear, has been one of the best allround sires ever used in Australia. There are many impressive Flower Power daughters in the Kaarmona herd.*
