

29HO11509 Autumn-Ridge MATSON-ET TL*TV

by Tom Harkenrider

MATSON is a true breeder's bull. He has an outstanding pedigree, impressive linear pattern and excels for the management traits. MATSON hails from the heart of the internationally respected Mary family from Dave & Sue Thompson's, Autumn-Ridge herd in Ithaca, NY. This family is noted for longevity, outstanding type and high components with exceptional milk production. MATSON hails from 5 generations of Excellent dams and we anticipate that global customer demand will be overwhelming! Enjoy the ride!

5th Dam: Col-Ray Bootmaker Melisa EX-90
Best Record: 3-07 2x 364d 19590M 3.7% 727F

Family Information

This family started when the Thompson's purchased Mary as a bred heifer in the fall of 1979 to start their herd of Registered Holsteins. Mary proved to be the best investment ever made by the Thompson's. Mary produced 4 EX SEXATION daughters, EX daughters by Starbuck and Wardin and VG daughters by VALIANT, Ares and Leadman. She did this over the course of 7 lactations and scoring 2E-93 at almost 7 years of age. MATSON is backed by the strongest line of the Mary's: 2E-91 Storm Mitzi x 3E-93 Mistletoe (Blackstar) x 4E-93 Sexy Munchkin (SEXATION) x 2E-93 Mary. The family has been developed using sires that have stood the test of time. This family has been a popular stop for US and European studs for some time. The truest test of this cow family will be in the success of the sons and the performance of the females in other herds. ABS recently sampled 29HO13568 MILLARD, a SHOTTLE son from MATSON's EX full sister owned by Reid Lundy at Luncrest Holsteins.

Daughter Information

MATSON daughters are extremely correct with a touch of style. They exhibit more stature, strength and dairyness than their herdmates. The rumps have good width and display the desired slope from hips to pins. They have an ideal leg from the side with a deep heel and tracking straight from the rear view. The udders are carried close to the body wall with a deep cleft and correct teat placement. His reliable type proof of over +2.00 for all composites confirms his unique appeal!

Mating Information

MATSON will be a great bull to use on heifers. He will cross well on daughters of ALTON, BANKER, BRADLEY, CUMULUS, FABRIZIO, GARRISON, JET STREAM, NANSEN, PROSPECT and TOUCHDOWN.
