

MOET Melody *TV

By Hugh Ratcliffe

Moet Melody is a top all rounder. He combines extreme 5% calving ease with good production and top type traits. The Melody daughters are proven to last and thrive in UK conditions making him an easy bull for any farmer to use.

Pedigree Information

Sire:	Eastview Influence Mattie G
Dam:	MOET Slocum Martha A VG
MGD:	MOET Winken Martha E VG
MGGD:	Jenniton-R Bell Martha EX
Next Dam:	Mulder Elevation Amanada EX

Family Information

The Martha cow family has been in the Moet herd for many generations now. They have consistently performed above their herd mates showing an extreme genetic ability to produce profitable milk cows. Slocum Martha was one of 3 VG sisters, all of which performed extremely well on evaluation. The Gdam Winken Martha has proven herself as a top brood cow breeding 4 VG and 1 EX daughter.

Daughter Information

Melody daughters follow a consistent pattern. They are tall, wide and deep with plenty of power throughout. They are not always the most stylish or angular cattle, but tend to be the more rugged type of cow which is built to overcome problems. He is an extreme udder bull showing improvements in all the udder traits, especially udder support and teat placement. Feet and Legs are also impressive, showing excellent locomotion and movement traits making the Melody daughters ideal for the cubicle environment. Production wise Melody again shows good improvements across the board with increased milk kgs as well as good component tests. Management traits are also spot on with good scc and milking speed scores.

Mating Information

He will work well on ROY, LOOKOUT, Principal, Jocko Besne, Stormatic, Celsius, Aaron

Whixall Mel – 4th Calver by Moet Melody
