Lact	Milk	Days	Fat %	Ptn %
1.	6963	305	4.13	3.38
2.	7263	305	4.19	3.46
3.	8908	305	3.84	3.71
4.	9814	305	4.27	3.41
5.	8866	305	3.99	3.37

*Dam: Brick Dendora 63 EX*

- *Ruud 13 is bred from the best of the world's Grassland genetics. Ruud 13 is sired by the top EBI bull Ireland, Ruud. This bull dominates the EBI list with sky high scores for Protein and Fertility based on daughters actually milking in Ireland on grassland farms. The dam of Ruud 13 is an exceptional cow in the Millstreet herd. This cow has a super udder, with great legs and feet and is a consistently high protein yielder. Denora 63 calved her 1<sup>st</sup> calf in April 2003 and her 4<sup>th</sup> in February 2006, gaining time each lactation. The G Dam is also a tremendous cow, still alive in the herd milking in her 6<sup>th</sup> lactation with no sign of slowing down.*
