Potterswalls DJ Star J2185

- Potterswalls DJ Star is bred from the well known Starlight family, that breeds consistently well combining high production with tremendous type. Potterswalls Starlight Eclipse EX92, the dam of DJ Star, is one of 3EX maternal sisters.

- DJ Star is bred to sire long lasting daughters with very high milk quality.

- DJ Star's sire (DJ Lirsk) and maternal grand sire (Connection) are both outstanding for the health traits. Their daughters are quick to get in calf and have low cell counts.
