       Best Record: 5-00 2x 305d 17161kgs 2.93%F 502kgs 3.08%P 528kgs  
 MGD: MOET Luke Scooter D-ET VG-87  
       Best Record: 3-11 3x 305d 17004kgs 2.96%F 503kgs 3.12%P 531kgs  
 MGGD: Scooter-Haven Holiday Tonya VG  
       Best Record: 1-09 2x 305d 10314kgs 3.00%F 309kgs 3.70%P 382kgs

## Family Information

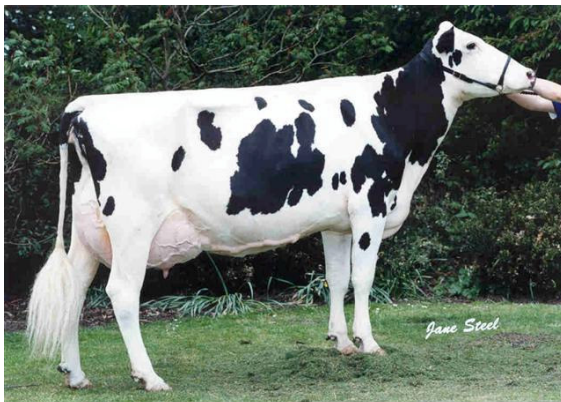

The dam of Skavlan is MOET Marconi Scooter A EX. Scooter has made a phenomenal impression on the MOET herd, and the hundreds of visitors we see each year. This cow has now produced over 80tonnes of milk lifetime within MOET, despite a very heavy flush programme. She scored VG87 as a two year old, and developed into a long, strong powerful cow, with a tremendous mammary, particularly noted for its heavy veining and silky texture. Behind her was MOET Luke Scooter D, who also has a 17,000kg lactation under her belt at MOET. This family has always impressed for high volumes of milk from beautiful cows. Ford is the ideal cross on Scooter as it injects power and depth whilst Scooter maintains the dairyness and milk production potential.

## Daughter Information

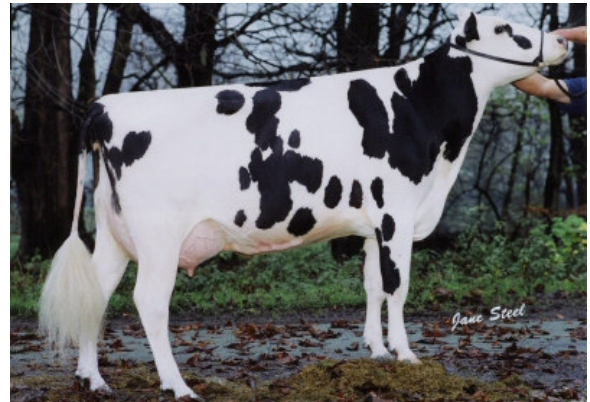

Skavlan daughters are consistently white like the dam Marconi Scooter. They have an ideal blend of strength and dairyness, taking the strength from Ford and the silkyness from Scooter. Udders are superb, beautiful fore attachments, great cleft and veins all over. The Skavlan heifers show excellent locomotion and tend to have a little more set to the leg than average. Management traits are exceptional as expected from a MOET bull with high scores for Temperament, Milking Speed and SCC.

## Mating Information

Skavlan is 8% calving ease, and will work well on daughters of Stormatic, Outside, MELODY, Jocko, Mtoto, Champion, CONVINCER, DIEHARD, SHOTTLE (keep them white!)
