Best Record: 3x 305d 17026kgs 3.51%F 598kgs 3.08%P 524kgs

Family Information

The most famous cow family to go through the gates at the MOET nucleus herd has been the Kizzy's. Tracing back to Out-A-Site Rotate Kizzy Kara, who scored EX in every trait at ten years of age, this line has turned out MOET graduates in every generation. SENSATION's third dam is the famous Mascot Kizzy, who produced 26,000kgs in 600 days as a heifer during an extensive flush programme. She went on to produce four bull mothers herself, notably Slocum Kizzy, the dam of the ever impressive LOOKOUT who combines great type with fabulous production. His best sister was Boudewijn Kizzy, top graduate through MOET in 2002, combining super management traits with the customary Kizzy udder and legs and feet and top production performance. Sensation is the first of her sons to be sampled

Daughter Information

As you would expect from this family, production is a given, impressive milk with exceptional kgs of fat and protein. Daughters are moderately sized and really well balanced with super sweep of rib and plenty of capacity. SENSATION's pleasingly exhibit some flex to the legs from the side, while when viewed from behind, they are clean boned and straight, and as a result daughters track cleanly and correctly and manage concrete, slats, strawyards and grass equally competently. Udders have silky texture and are noted for the depth and strength of cleft

Mating Information

SENSATION will cross well over milking daughters of REECE, GARRISON, NANSEN, GRAYSON, TOUCHDOWN, Outside and Mtoto.
