Average production for 4yrs 11mo:
 8,009kg 4.5%F 3.7%P

235 Krona, by B Jurist out of a Backgard dam, and a member of the Krona family that bred Kommander

Skyhigh Kommander SR2031

- Skyhigh Kommander is bred from an impressive cow family that has performed well in Sweden and also in Mark Shadwick's Skyhigh herd in Cumbria. His dam combines high milk production with very high fat and protein percentages.
- Skyhigh Kommander's pedigree combines two of the best bulls in the Swedish Red breed. Orraryd and B Jurist have many daughters milking around the World and both bulls combine high production with excellent all round type.
