MGGD: Wilsondale Leadman Tracy EX91
Best Record: 2x 305d 9784kgs 4.00%F 391kgs 3.40%P 333kgs

Family Information

ABS (thanks to Bill Foster) have been responsible for introducing the Triuna family into the UK with huge success. Simon Powell developed Mandel Tracy at his Burlane herd, and flushed her as a maiden which resulted in two EX and one VG daughters. The Mandel subsequently scored EX, and looks as youthful today as when Tennyson was aquired. Mtoto Tracy lit up an otherwise drab Sunday when she was first seen as a potential bull dam. Typical Mtoto rump with perfect set and width, great feet and legs with super locomotion. I loved her hard top and loin, and she had all the potential to make a powerful and long lived cow. Her VG89 daughter by ROY is currently one of the highest ranking cows in the UK today.

Daughter Information

TENNYSON is a dual sampled bull, in the UK and Australia and is impressing greatly on both sides of the globe. Daughters are well balanced and powerful with strong front ends and rock hard toplines. Rumps are wide with ideal thurl placement. Heifers track straight with pleasing flex to the hock and ideal foot angle. Udders are anchored on thanks to strong crease, and rear udders are wide, and consistently exhibit silky clean texture. TENNYSON daughters are consistently the highest producing amongst their herd mates and continue to increase in production throughout lactation.

Mating Information

TENNYSON will work well on daughters of MELODY, DIE-HARD, DRAKE, LUCKY STRIKE, BURT, Durham, Ramos.

Daughter of TENNYSON
Garn Lady 21 GP84 2yr
