Thornton Hercules

Thornton Hercules G 9891

- *Thornton Hercules is bred from an impressive cow family. Thornton Omega 7th, his EX91 dam, was a big powerful cow with an EX92 udder and his grand dam won prizes at local shows in Cheshire. Thornton Omega 7th, a maternal half sister of Hercules, is the top yielding cow in the Thornton herd, having given 9425kg in 305days at 4.74%F and 3.38%P in her third lactation.*
- *Thornton Hercules' sire also has an impressive pedigree, being a Glacier son out of Wardour RO Fawn EX94 that has given yields over 10,000kg.*
