Best Record: 2x 305d 8952kgs 3.99%F 357kgs 3.53%P 316kgs
MGGD: Martinique VG89
Best Record: 2x 305d 12268kgs 3.50%F 429kgs 3.35%P 411kgs

Family Information

From the Gibbon foundation cow “Oseille”, Jean Luc Couedic bred two tremendous Tugolo daughters, Radio and Pugolo. Both scored VG87 as two year olds, and have now both scored EX with their third calf. This family has already graduated a son; STUM is the Jesther son from Radio. Pugolo is great on the move, with fluid locomotion and extremely good feet with deep heel. I love her powerful, wide head, and this strength is carried on right through. She lives and works in a large commercial unit at St Thelo and has already bred a VG89 daughter who has attracted international AI interest.

Daughter Information

Topnotch transmits remarkable consistency, and so despite daughters being scattered right across the UK, they are stamped like peas in a pod. Moderate sized daughters are not too extreme, and carry a pleasing amount of condition throughout lactation. They are hard loined and exhibit near perfect rump structure which bodes well for mobility and calving. Udders are without exception well attached with deep crease and soft texture, and are built to last. The other notable consistent “trait” is “farmer satisfaction”, with every owner declaring they love their Topnotch’s both in and out of the parlor.

Mating Information

TOPNOTCH will cross ideally over MELODY, NANSEN, DYNASTY, ZEST, GARRISON, REECE and DIEHARD.
