

## 29HO13070 WELCOME PENNYMAKER-ET\*TL\*TV

By Tom Harkenrider

PENNYMAKER is a profit maker! He will increase the value of milk with higher solids and lower SCS. PENNYMAKER daughters will calve easily and breed back quickly (DPR) for several lactations (PL) resulting in increased profits for the producer. In addition, PENNYMAKER offers a different pedigree of Lancelot (Lukas x Tonic x Prelude) x Aaron x Merrill.

### Family Information

PENNYMAKER hails from a cow family at Welcome Stock which has quickly risen to the top. Owner, Bill Peck Jr. has coined the phrase “the power of Penel” when talking about PENNYMAKER’s dam, Aaron Penel. She is truly a brood cow producing VG & EX daughters by Lancelot, O Man, OZZIE, Rio, Satire and Teamster. Her grand daughters are causing quite a stir now.....Goldwyn Penya VG-89 x OZZIE Peya EX-90 and JET STREAM Pat VG-88 x Teamster Pat. Both will have multiple sons sampled at ABS. We recently sampled a Mac son from Goldwyn Penya, 29HO14328 Picasso and have a BOLIVER son from JET STREAM Pat’s full sister, Penny coming to ABS.

### Daughter Information

In the field PENNYMAKER daughters have been balanced cows suited for any environment. The daughters are average sized cattle with very youthful udders held higher above the hocks. PENNYMAKER daughters also have tightly attached fore udders and have deeper creases and stronger clefts. You can count on PENNYMAKERS to have excellent mobility as they track straighter from the rear and have an ideal set of feet and legs with a good foot angle.

### Mating Information

PENNYMAKER can be used in the heifer pens. He will cross well on daughters of AFFIRMED, BOLTON, BRADLEY, DEANO, HOMESTEAD, LENOX, MORRIE, REVOLUTION, RON, SCRIMMAGE, SNAPSHOT and VIKING.
