Family Information

X-RAY is a successfully proven son from the world famous Dellia family and sired by the popular Goldwyn. X-RAY was bred by Sandy-Valley Farms, Scandinavia, Wisconsin. His dam Dollar sired by Timlynn Throne produced several outstanding progeny. X-RAY had 5 full sisters scored EX-90, EX-90, VG-87, GP-83 and GP-81 an impressive group of sisters. Dollar also has five BOLTON daughters and BOLTON is a great cross on Dollar. The EX-92 Debbie-Jo (sired by Patron) is the grand dam and she has produced over 95 offspring. The third dam is Leadman Dolly EX-90 and then the infamous Dellia.

Daughter Information

X-RAY daughters will leave a great impression as far as being a Cornerstone Favorite. The daughters are stamped out to be stylish and dairy individuals with tremendous udders! Daughters will have youthful appearing udders held higher above the hocks and have strong fore udder attachments. They also have well defined creases and show plenty of veination and quality of texture to their mammary systems. Overall the daughters are moderate sized to taller individuals with a great combination of strength and dairyness. X-RAY daughters track very well on their feet and legs, especially from the rear and have steep foot angles. The only real flaw if any is that they can show some slope to their rump angles. Use X-RAY to improve all type traits.

Mating Information

X-RAY would work well on the milking daughters of SHOTTLE, JEEVES, DRAGON, MELODY, HOMESTEAD and BOLTON.
