

29HO13601 Cascina Giobbi ZELGADIS * TV-TL

Goldwyn x Aaron x Juror x Pontiac
by Virginio Zilli

ZELGADIS hails from a relatively unknown family here in Italy but this is changing quickly! I visited Botasso's farm for the first time back in October 2005, and was fascinated by a stunning JUROR daughter, which was at that time was already EX and into her sixth lactation. I wanted to see which daughters came from her at the farm and was not disappointed. An Aaron and a Merchant daughter took my breath away so I contracted both for ABS to Goldwyn, and ZELGADIS from the Aaron and KAIMURAT from the Merchant dam were born, all following that love at first sight moment with a super JUROR cow

Pedigree Information

Sire: Braedale GOLDWYN
Dam: Cascina Giobbi Domenica VG88
2-10 305days 12709kgs 4.19%F 532kgs 3.47%P 441kgs

7-10 305days 14486kgs 3.81%F 552kgs 3.13%P 453kgs
3rd Dam: Cascina Giobbi Piccola VG86
4-01 305days 13809kgs 3.50%F 348kgs 3.30%P 459kgs

Family Information

ZELGADIS has a unique and impressive pedigree, blending a great sire stack with an exceptional maternal line, designed to deliver long lasting cows that produce large volumes of high quality milk. The cow that has put this family on the global map is ZELGADIS's grand dam: she is an awesome JUROR daughter, still on the farm after 10 lactations scored EX. Despite never flushing, she has three outstanding daughters, notably Domenica, the VG88 dam of ZELGADIS and Gemona, a VG86 Merchant, dam of KAIMURAT. Domenica was a beautiful Aaron daughter, with a rare strength and width for an Aaron daughter. She had a wide muzzle that expressed all her power and will to produce large volumes of milk, demonstrated in her third lactation where she peaked at an incredible 56kgs at 4,45% fat and 3,78% protein.

Daughter Information

ZELGADIS daughters are very strong, long and tall cows that will remind you of his dam. They have perfect rumps with good width that creates enough space for their balanced udders. They have tight fore udders and high rear udders. These animal impress for how they walk in the barn, they have quite perfect legs with very tall and strong hocks.

Mating Information

ZELGADIS can be used on daughters of: BOLTON, ALTON, PIPPEN, BURT, MORRIE, SHOTTLE, GRANDVIEW, JAMMER, GARRISON and will also cross well on Jocko and Ford blood
