

29HO13829 Larcrest CHANDON-ET*TV*TY

By Paul Trapp

CHANDON is the newest proven member of the Larcrest cow family to graduate into active AI. With the dawn of genomics, there has not been a more popular cow family around the globe than the Larcrest cow family. CHANDON is a proven bull with a logical popular sire stack, with outstanding type traits who is backed by a globally popular cow family.

Pedigree Information

Sire: R-E-W Buckeye-ET

2-03 365d 29110M 4.5% 1322F 3.5% 1022P (2 lactations)
MGD: Larcrest Juror Chanel EX-93 @ 9-06 3E GMD DOM
Lifetime: 2899D 245420M 4.3% 10482F 3.4% 8403P (5 lactations)
3rd Dam: Larcrest Lindy Chandra VG-85
4th Dam: Larcrest Inspiration Carly VG-87 (5 lactations)
5th Dam: Larcrest Starbuck Charlotte GP-81 (2 lactations)
6th Dam: Larcrest Golden Opportunity VG-85 (4 lactations)

Family Information

ABS Rep Chuck Reindal brought the herd of Jon & Ann Larson to my attention many years ago about a Juror daughter named Chanel. Chuck said Larcrest was an honest herd using good bulls that I should visit. With that lead, I've been stopping at Larcrest Holsteins for nearly 10 years. JUROR Chanel did everything a dairymen could ask for...she calved 5 times, scored EX-93 at 9 years and 6 months of age, made near 250,000 of milk in her lifetime plus left EX daughters sired by CONVINCER, Durham and Talent plus VG daughters by September Storm, Allen, Goldwyn (2) and DUNDEE. Outside Champagne EX-90 is the maternal sister to CONVINCER Chante EX-90 who is the dam of 29HO11931 CONTROL. Champagne has an ALTON (29HO13913), Ramos (29HO14202) and two Mac sons (29HO14355 & 29HO14356) awaiting proofs at ABS. CHANDON has one VG-87 full sister and VG maternal sisters sired by Shottle (3), Lou (2), ALTON, Ramos (4) and Mac. Champagne's most famous sister is Shottle Cosmopolitan. This is one of the best Shottle daughters in the world and has had multiple offspring sell for over \$50,000. She is the dam of Primetime Bulls – CRUSH (sired by SANDY), CYPRUS (sired by Planet), CUSTOM (sired by DIGITAL) and new December Primetime Bulls 29HO14615 CANCUN (sired by Planet) and 29HO16113 CAPITALIZE (sired by Super). You will continue to see offspring from Cosmopolitan (two Observer sons), her VG-89 Ramos daughter Crimson (one Observer and two Gerard sons) and other family members in upcoming ABS Bull Books. Obviously genomics likes this cow family but so do our PT Herds due to many milking daughters of CONTROL and CHANDON.

Daughter Information

CHANDON daughters are problem free commercial cows with noticeably standout udders. Breeders can expect CHANDON daughters to have youthful udders with plenty of height and a well defined cleft, but will be pleasantly surprised by the tremendous width. Daughters are slightly taller and walk on an exceptional set of feet and legs. Protect for strength and depth, as daughters can be tighter through their front end though wide through their rump.

Mating Information

Use CHANDON in the milking string on daughters of OZFEST, BOLTON, SHOTTLE, Toystory and Planet.
