

94HO13666 Scientific DESTROY-ET*RC*TV*TY

By: Tim Abbott & Paul Trapp

There are very few bulls in history that sell continuously from the time they are released as young sires until they get their first proof, DESTROY*RC is one of them. This bull has been popular since his release. He came on to the scene with great excitement because he is a Goldwyn son with the Red Factor. Then he was very successful with his genomic evaluation and now the daughters are calving with great udders. DESTROY*RC has the potential to be a huge impact bull for our business.

Family Information

The Roxy family is well known for the great impact it has had on the business. The family has produced bulls like Raider, Ruebens, Debonair and now DESTROY*RC!! The family is known for their longevity and tremendous type. Roxy was voted two time Queen of the Breed because of the huge influence she has had on the breed for generations. Now the newest generation of the Roxy family has hit and combines RC, Goldwyn and Durham all into one package with this great maternal line.

Daughter Information

The exciting *RC Goldwyn son is producing daughters that stand out for type and consistency. DESTROY daughters have extremely high quality udders that are strongly attached and very youthful with deep clefts and close teat placement. DESTROY daughters are very tall and long legged with adequate strength in the front end and moderate depth of body. DESTROY daughters have set to the hock but stand on a deep heel.

Mating Information

Use DESTROY*RC on daughters of DUNDEE, BOLTON, SHOTTLE, JET-RED, Advent-Red, Redliner-Red and Contender-Red daughters.
