

29HO11909 WA-DEL HAYDEN-ET*TL*TV

By Tom Harkenrider

HAYDEN is leading the wave of Oman sons to enter active line-ups around the world. Like his world famous sire, HAYDEN delivers the genetics for profit minded producers. HAYDEN daughters calve easily; produce high quality (low SCS) component rich milk for several lactations (PL). HAYDEN really follows the adage of "like father, like son". The owners of HAYDEN daughters describe them as the top performers in the two year old pens...milking well, trouble free and breeding back quickly.

Pedigree Information

Sire: O-Bee Manfred Justice-ET
 Dam: Darlawn Mtoto Honibea VG-85 VVV+V DOM
 Best Record: 2-05 2x 365d 37710M 4.2% 1574F 2.9% 1094P
 2nd Dam: Darlawn Rudolph Hera-ET VG-86 +VVVV
 Best Record: 3-04 2x 361d 34360M 3.2% 1095F 2.9% 994P
 3rd Dam: Wallmac Bstar Dixie Honi-ET 2E-91 EEEEEV GMD DOM
 Best Record: 5-00 2x 365d 47750M 3.8% 1836F 2.8% 1335P
 4th Dam: Dixie-Lee Legacy-ET VG-87 VVEV GMD DOM
 Best Record: 5-01 2x 305d 30520M 4.0% 1235F 2.8% 858P
 Lifetime: 1949d 134770M 4.2% 5615F 2.9% 3948P

 Best Record: 8-02 2x 365d 28020M 3.7% 1037F 3.1% 863P
 Lifetime: 3288d 210240M 3.8% 7982F 3.0% 2572P

Family Information

HAYDEN is backed by a strong cow family and the impressive sire stack of Oman x Mtoto x Rudolph x Blackstar x Tony x Glendell x Elevation. HAYDEN's dam was one of the finest second crop Mtoto daughters in the eastern US. As a result of Mtoto's second crop success, Rick Wadel (Wa-Del) and Dale Rice (Ricecrest) decided to acquire an Mtoto daughter to breed from. They found her a few hours north of them in the herd of Paul & Mark Darling. Mtoto Honibea worked well for Rick and Dale. She produced nine VG daughters and sent several sons to AI. Next for ABS is 29HO11944 HANK, a PIPPEN brother to HAYDEN. ABS has continued to work with this family as the sisters have sons by GARRISON and JET STREAM in-waiting.

Daughter Information

HAYDEN daughters will excel in any type of operation. They are moderate size with plenty of strength and width throughout. This width allows for a wider rear udder held close to the body wall. They do vary from the typical Oman granddaughters in that they display a deep open rib with a clean, flat bone in the leg. They have great mobility to survive in the most intense of management operations.

Mating Information

HAYDEN is a great bull to use in the heifer pens. He will cross well on daughters of BOLIVER, CASHMERE, COLEMAN, DETECTIVE, DRAKE, GRANDVIEW, JINGLES, MALIN, NILES, PROSPECT, SHEVA and STRATUS.
