

29HO13669 Cook-Farm SKYLINE*TB*TY

By Tom Harkenrider

Rarely does a bull come along with the cow family like that of SKYLINE. SKYLINE is the ideal bull for breeders wanting strong cow families in their sire selection. SKYLINE daughters display the ability to be profitable as they avoid calving issues (DCE) to enter the milking string sooner to produce nutrient rich (fat & protein %), high quality milk (SCS). They will do this for a longer period of time (PL) by breeding back sooner (DPR).

Family Information

SKYLINE hails from the world renowned "Fayvor" family developed by Gordie Cook & Family in Hadley, MA. The family is known for their outstanding transmitting ability. The members of this family have excellent scores and outstanding butterfat test for generations. The foundation of this family, Elevation Fayvor, is EX-95 and produced just short of 250,000 pounds of milk in her lifetime with a 4.9% butterfat and over 12,000 pounds of fat. Very few bulls in AI boost 8 generations of EX dams with 6 of them receiving multiple "E" designations and 4 with over 200,000 milk lifetime. SKYLINE's dam, Oman Stylist is still in the herd today working on her 3rd lactation following extended lactations due to flushing. ROY Freestyle was a terrific brood cow leaving 2 EX & 1 VG daughters of Oman, 1 EX & 2 VG Outside daughters, a VG-88 Mac, a VG-86 Pronto and a VG-86 DUNDEE.

Daughter Information

SKYLINE daughters are average in size and scale and show more openness to their rib with a cleaner bone structure. They have excellent udders that are shallow with strong fore udder attachments. Moreover, they have stronger clefts with teats placed more closely beneath each quarter. The daughters will show some set to their leg, but will track straight from the rear. Protect SKYLINE daughters for strength and slope to the rump.

Mating Information

SKYLINE will be a popular bull to use in the heifer pens. He will mate well on daughters of ALTON, BOLTON, BOULDER, BREAKOUT, BURT, DAYTON, DEE, DRAKE, EVERETT, GABE, HOMESTEAD, JUNIPER, MALIN, NACHO, NORSKI, REECE, SAWYER, SHOTLE and TENNYSON.
